Mayor Juracek suggested that ONCC email the current by-laws to ONCC Members for their input prior to when the committee meets.

Mayor Soto said SOC members who were not currently on ONCC would consider joining if a SOC member were in a leadership position on ONCC.

Dr. Kuper said someone with history and knowledge should be on ONCC leadership.

Mayor Juracek said there should be some rotation in leadership to allow other members to participate on ONCC.

Ms. Dunlap said some ONCC members who also belong to SOC and would encourage them to participate more on ONCC to become familiar with the issues.

Mayor Soto suggested balancing from the eastside of the airport to the westside of the airport for participation.

Mayor Juracek noted the IGA was not in question for edits only the by-laws.

Mayor Soto said the ONCC was noted on the ROD. He said ONCC was a good group to participate on.

Mr. Annunzio noted the IGA had a section where ONCC could be more active.

Ms. Dunlap noted ONCC does legislative advocacy.

Mr. Annunzio said the IGA allowed room for additional advocacy.

Report of the ONCC Ad Hoc Fly Quiet Committee

Mr. Annunzio reported on a letter sent by the Village of Bensenville to extend the Fly Quiet Rotation test beyond the six-month timeframe.

Mr. Leach said CDA generally had heard positive comments about the test. However, he noted the approval process would need to happen. Data needed to be collected and analyzed after the test was completed.

Mayor Soto asked for the timeline after the test was completed.

Ms. Dunlap said it was important to wait until the winter months to know exactly how the test affected runway use to know the functionality.

Mr. Leach said that regulatory content needed to be researched.

Mayor Juracek asked if the general discussion could be taken as a formal request to extend the test.

Ms. Camacho asked the date for the closure of Runway 15/33.

Mr. Leach replied 2018.

Mr. Annunzio said he would like to give the FAA enough time to consider ONCC's request for extending the test.

Mr. Leach ~~said~~ reiterated the regulatory process and the test was only for six months.

Mayor Soto said it would be good to know what ONCC could expect if it asked for an extension or continue the test.

Mayor Juracek asked CDA to report back with the regulatory information and how ONCC would be able to continue the test if a vote was taken by ONCC members.

Ms. Dunlap said the facts needed to be produced and to continue an open dialog to the public.

Ms. Camacho asked if ONCC would require the 2/3 super majority or the simple majority.

Mayor Juracek said the 2/3 super majority was the CDA's request.

Mr. Leach said it would be up to ONCC to decide between simple or 2/3 majority.

Mayor Juracek said most of the NextGen topics would not affect O'Hare until the full OMP buildout.

Mr. Dunlap said that NextGen was built into the EIS. She wanted a relationship with the new community relations person at FAA. She would like ONCC to be aware of any changes with NextGen implementation at O'Hare.

Mr. Annunzio said CATex was an issue when FAA was making implementations without the public input.

Ms. Camacho said ONCC was asked to look into HB5917 at the last ONCC meeting. She provided a copy of the pending bill to members and noted that some language did not meet the criteria established for sound insulation.

Mayor Soto said SOC helped with HB5917 and noted CNEL was used to benchmark the distance from the airport.

Mayor Juracek suggested staying neutral on the bill and informing ONCC members about the bill for their interests.

Ms. Dunlap said there was confusion with the public and the facts of sound insulation.

Mayor Soto said the bill could benefit people who were not in the 65 DNL.
