O'HARE INTERNATIONAL AIRPORT

NIGHTTIME ACTIVITIES ON THE AIRFIELD

ONCC MEETING

AGENDA

1. Coordination
2. Construction
3. Runway Inspections
4. Maintenance
5. Flight Checks
6. Weather

COORDINATION

- Airlines
- Chicago Airline Cargo Manager's Association (CACMA)
- CDA Operations
- Construction Managers (CMs)
- FAA Airports
- FAA Air Traffic
- Short-Term Operational Phasing (STOP) Meetings
- Special Requests
 - Arrivals & Departures
 - Taxiing
 - Ground Run-Ups

CONSTRUCTION

- Airside
- Landside
- Off Airport

RUNWAY INSPECTIONS

- Clear of Foreign Object Debris (FOD)
- Markings and signs in good condition and visible
- Lighting working and undamaged
- Runway surface not damaged
- Oil and fuel spills
- Work areas clear of all materials and equipment
- Grass
- Wildlife (feeding habitat)
- FAA inspection

Chicago Department of Aviation

O'Hare Gets Perfect Marks for Safety from FAA

CHICAGO, August 19, 2016 - The [Chicago Department of Aviation](#) (CDA) is pleased to announce that O'Hare International Airport received a perfect score from the [Federal Aviation Administration](#) (FAA) for its annual Part 139 airfield safety inspection. The inspection period ran from July 11 through July 29, 2016.

The FAA's airfield inspection was conducted over the course of three weeks last month and was completed on July 29, 2016. This annual test closely examines an airport's compliance with regulations for airfield operations including pavement, signage, lighting, markings, inspection reports, fueling operations and emergency response and preparedness.

"Safe and efficient travel is our number one priority at Chicago's airports," said Ginger S. Evans, Commissioner, CDA. "This perfect score for safe flight operations on one of the busiest airfields in the world highlights the CDA's dedication to provide the highest level of safety for the traveling public each and every day."

O'Hare International Airport encompasses over 11 square miles and has eight active runways and more than 50 miles of taxiways. An average of more than 2,500 flights arrive and depart O'Hare every day.
